

MacLean MV Hydraulic Sweepers

Specifications			
Model	MTCS60	MHSW72	MHSW84
Overall Width	65"	77"	89"
Operating Width	60"	72"	84"
Brush Diameter	10" ID, 32" OD	10" ID, 32" OD	10" ID, 32" OD
Angle	35.8°	35.8°	35.8°
Brush Composition	Poly & Wire Combination (Wafer Style)		

Features

- Hydraulic direct drive sweeper – no gears or drive chains
- Integrated tilt cylinder to adjust head tilt
- Sweeper head oscillation
- Integrated storage stands
- Balanced sweeper head to limit broom coning
- MV's adjustable and proportional hydraulics allow for infinite control over sweeper head rotation speed (MTCS60 model with single motor only)
- Ability to rotate the sweeper head in forward or reverse (MTCS60 model only)
- Optional dual motor kit for increased capacity (MTCS60 model only)
- Optional wet kit for dust control

Applications

- Sidewalk sweeping
- Roadside sweeping

Requirements

- Second high flow hydraulic pump (MHSW72 and MHSW84 models only)
- Dual motor (optional–MTCS60 model only)
 - *Requires second high flow hydraulic pump*
- Sweeper wet kit (optional)
 - *Requires water tank*
